Whatever else their impact has been, 18 months after the revised Federal Rules of Civil Procedure (FRCP) went into effect, the new Rules have changed many organization’s perception of the need for Records and Information Management. In this up-to-the-minute presentation, learn of key cases, decisions, and developments in the law in the year and a half since the FRCP changed the e-discovery landscape.
10:15 am - 10:45 am
Networking Break, Tabletop Exhibit Viewing, and One-to-One Meetings

10:45 am - 11:30 am
Managed Email: It's All About M.E.!
Sandra F. Hostetter, Program Manager, Electronic Content Management and Retention, Rohm and Haas Company
Rohm and Haas Company recently completed the successful rollout of their managed email approach to more than 6000 employees in its North American locations. This milestone is the culmination of more than four years of teamwork focused on designing, testing, and implementing an approach for identifying, storing, and protecting company records created in email. This session will show how a comprehensive change management plan and targeted communications to stakeholders contributed to achieving user buy-in and the overall success of the program.

11:30 am - 12:15 pm
Building the RIM Office: How to Get Started and How to Succeed
George Goldsmith, Director, Enterprise Content Management & Litigation Support, Forest Laboratories, Inc.
More and more organizations today are in the process of formalizing and commissioning a Records and Information Management (RIM) Office. The role of the RIM Office varies, but it generally serves as the central function for the design and operation of the RIM program. The RIM Office serves as an intermediary for the business, legal and technology perspectives. In this hands-on presentation, hear from an experienced RIM executive as he speaks about his experiences in creating and developing a RIM Office.

12:15 pm - 1:30 pm
Lunch, Tabletop Exhibit Viewing, Roundtable Discussions and One-to-One Meetings

LUNCHEON ROUNDTABLE DISCUSSIONS
During lunch, the roundtable discussions will provide attendees the opportunity to interact with peers, speakers and subject matter experts on key topics in an interactive format – with the discussion led by an industry expert. Attendee participation is strongly encouraged. Sign-up sheets will be available at registration on a first-come, first-served basis.
Visit www.idc.com/kahnconsulting/compliance08 for roundtable topic and facilitator updates.

1:30 pm - 2:15 pm  CONCURRENT SESSIONS
Group 1: Take Back Control of The Digital Landfill
Laurence Leong, Program Director, Compliance, IBM
Email, instant messaging, file servers and SharePoint can be a digital landfill – filled with growing content that is uncontrolled, can’t easily be found or reused, has multiple copies and is unsecured. In this session, you’ll hear about solutions to help manage this digital landfill to improve compliance, reduce risk and reduce costs.

Group 2: Sorting Through the Mess of ECM Solution Offerings
Adam Cohen, Senior Managing Director, FTI Consulting
This session will discuss a practical approach to assessing and selecting from the broad array of ECM solution offerings on the market today. With information management requirements coming from all areas of the organization – legal, records management, compliance, business lines – mounting pressures to reduce risk and cost and a bewildering array of offerings, how do you select the right product? What’s more, what are the right criteria for selection? Who should be involved & what are the requirements from the various constituencies? You will hear from a client, who has gone through the selection process and implemented an ECM solution.

2:15 pm - 3:00 pm  CONCURRENT SESSIONS
Group 1: Avoid the Email Iceberg:
4 Steps to Information Risk Management
David Campbell, Senior Product Marketing Manager, Symantec Enterprise Vault
Information risk management is about protecting information – and particularly unstructured information in email – wherever it goes. This session will focus on key problems in managing information risk: keeping external attacks out; ensuring information does not leak; maintaining important corporate information only as long as necessary; and finding information for legal, regulatory, or compliance purposes. You will also hear from a customer who has implemented archiving solutions to optimize email management and proactively take control of information risk management.
Group 2: Applying Information Governance Practices for e-Discovery

Brad Harris, Director, Discovery Center of Excellence, Fios, Inc.
Robert Graebe, Senior Architect, Technology Planning, Bridgestone Americas Holdings, Inc.

This presentation will provide real-case examples on how applying information governance practices can have enormous impact on your organization’s readiness to respond to e-discovery requests. You will learn how to facilitate better communication between the legal and IT teams and to ensure all parties understand how relevant data is captured, organized, accessed, replicated, managed and ultimately disposed of as part of a routine course of business. You will hear from a customer who has applied information governance practices in their own business, including data mapping, technology assessment and plan development, and how these actions can help mitigate the costs, risks and burden of e-discovery.

3:00 pm - 3:30 pm
Networking Break, Tabletop Exhibit Viewing and One-to-One Meetings

3:30 pm - 4:15 pm
RIM: From Policies to Technology
Roman V. Coleman, Vice President, Enterprise Records & Information Management, SunTrust

Learn how companies have adapted to the legal, technology, and business challenges of RIM. You will hear advice on positioning the RIM program within your organization to ensure success; the importance of the enabling policy and records retention schedule; selling records management concepts to minimize legal risk and maximize information management opportunities; translating RIM requirements into technological solutions; and tips for managing the RFI, RFP and POC with vendors. Learn this and more from an executive who has built several RIM programs.

4:15 pm - 5:00 pm
Panel Discussion: Aligning Compliance Programs and Business Strategy Using Collaborative Teams

Annette Weller Collison, Senior Consultant, Kahn Consulting, Inc.
Mark Kimmey, Regional Manager, Project Information Management Technical Excellence Center, Parsons Brinckerhoff
Fred A. Pulzello, MBA, CRM, Executive Director and Global Corporate Information Manager, Morgan Stanley Inc.; Board Member, ARMA International
Matthew Widick, Vice President Legal and Compliance Division, Morgan Stanley Inc.

It has never been more important for cross functional teams to work collaboratively to get information management compliance right. This lively panel will help you understand what you need to do to get the right team engaged and how to work through complex information challenges while addressing compliance issue and business needs.

5:00 pm - 5:45 pm
Building the Case for Records and Information Management: From Risk Avoidance to Bolstering the Bottom Line
Barclay T. Blair, Director, IT Compliance Practice, Kahn Consulting, Inc.

With the economy tightening, it has never been more important for RIM practitioners to be able to build the case for RIM. Why does it matter to your organization? What benefits does it bring, and how can you measure those benefits? In this dynamic presentation, learn from Mr. Blair’s years of experience helping organizations quantify the benefits of RIM – from risk avoidance to bolstering the bottom line.

5:45 pm - 6:00 pm
Closing Remarks
Richard Villars, Vice President, Storage Systems, IDC; Forum Co-Chairman
Randolph A. Kahn, Esq., Founder and Principal, Kahn Consulting, Inc.; Forum Co-Chairman
