

# China Quarterly Aerial Photography Drone Tracker

---

IDC's *China Quarterly Aerial Photography Drone Tracker*® provides details on vendors, market opportunity, and trend analysis in the growing aerial photography drone market. IDC's *China Quarterly Aerial Photography Drone Tracker* provides detailed information concerning these products in an easy-to-use pivot table. IDC's tracker products provide reliable, accurate, and independent market research as a base to create quantitative market analyses and to study historical and future trends.

---

## Technology Coverage

This tracker provides total market size and vendor share for the following areas. Measurements for this tracker are in unit shipments, end-user value, and ASP.

### Core Coverage:

- Vendors
  - Model
  - Channel splits
  - Segment group splits
  - Max flight time
  - Live view
  - Camera megapixels
  - Camera resolution
  - Remote control distance
  - Price band
  - Gimbal
  - Weight band
- 

## Geographic Scope

- PRC (1)
- 

## Data Deliverables

This Tracker is delivered on a quarterly basis via a web-based interface for online querying and downloads. Deliverables for this tracker are listed below. For a complete delivery schedule please contact an IDC sales representative.

- Historical data
  - Forecast data
- 

## Forecast Coverage

Forecasts for this tracker are updated quarterly and include two years of historical data, two years of quarterly forecasts, and an additional three years of annual market projections. Forecasts are available at the PRC levels. Details of the forecasts included in this tracker are as follows:

### Core Forecast Coverage:

- Units
- ASV
- Value

---

## IDC's Tracker Methodology

IDC's tracker data is developed using a rigorous methodology that includes well-planned and well-coordinated local, regional, and worldwide data cross-checks combined with a proprietary advanced data consolidation and analysis data platform managed by IDC's Worldwide Tracker organization. Data sources used in the process of determining IDC's tracker numbers include, but are not limited to:

- In-country local vendor interviews
- Distribution data feeds
- Worldwide and regional vendor guidance
- ODM data
- In-country local channel partner discussions
- Import records
- Feedback from component suppliers
- Vendor briefings and public financial reports

---

## Enabling Better Business Decisions Across the Organization

IDC trackers provide the accurate and timely market size, vendor share, and forecast information you need to identify market and product expansion opportunities, increase revenue, and win market share. IDC's tracker research is a critical input to the planning and monitoring cycles of the business process. Common uses of the tracker data include:

### Planning Process

- Regional-, state-, or city-level planning — setting regional-, country-, state-, or city-level sales targets based on market opportunity
- Product marketing — creating a product strategy and road map based on currently available product features and expected growth
- Production planning — using customer demand data as an input in the creation of production schedules
- Product portfolio planning — accessing accurate and detailed data as an input into the product development process

### Monitoring Process

- Performance measurement — comparing vendor performance on prior fiscal periods
- Competitive analysis — reviewing competitor performance across multiple dimensions: product, features, channel, segment, and geography
- Sales forecasting measurement — assessing internal sales forecast versus actual results
- Price benchmarking — comparing vendor versus market pricing data by model
- Marketing communications — using positive results for messaging in the press, at partner events, or in sales collateral
